REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art teaches related storage mapping systems, but fails to teach the combination including the limitation of:

(Claim 1) "...using memory in the storage and switch controller to supplement the memory of the IMPS by storing in the IMPS a subset of a full set of extent maps for data volumes handled by the IMPS, and storing protection maps in the memory of the storage and switch controller that mark edges of unmapped regions of the data volumes then selectively loading more than the subset of extent maps in the IMPS in response to host access to the data volumes";

(Claim 10) "... using memory in the storage and switch controller to supplement the memory of the IMPS by storing in the IMPS a subset of a full set of extent maps for data volumes handled by the IMPS, and storing protection maps in the memory of the storage and switch controller that mark edges of unmapped regions of the data volumes then selectively loading more than the subset of extent maps in the IMPS in response to host access to the data volumes";

(Claim 19) "...using memory in the storage and switch controller to supplement the memory of the IMPS by storing in the IMPS a subset of a full set of extent maps for data volumes handled by the IMPS, and storing protection maps in the memory of the storage and switch controller that mark edges of unmapped regions of the data volumes then selectively loading more than the subset of extent maps in the IMPS in response to host access to the data volumes".

Claims 2-5, 7-9, 11-14, and 16-18 are allowed as being dependent upon, and thus incorporating therein, the allowable subject matter of the respective parent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
